

TH 43"/ 55" Elevating Touch Table

Redefine Collaboration with Smart, Interactive Workspaces

Transform your workspace with a 43" or 55" 4K touch display that doubles as a height-adjustable desk.

Multi-screen Interactive Collaboration

Supports simultaneous writing, annotation and sharing across multiple devices for smoother team discussions

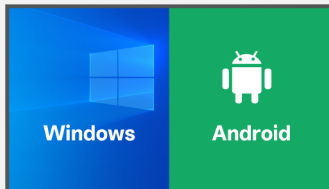

High-speed Wireless Screen Mirroring

One-click wireless screen mirroring from phones, tablets and PCs, no cables needed for efficient presentations

Electric Lifting with Stepless Adjustment

Silent electric lifting structure for stable, quiet operation and precise height adjustment

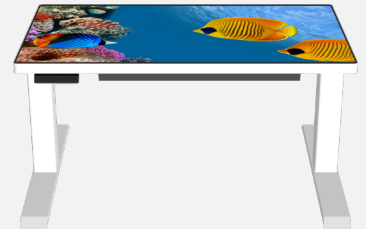

Dual-system Seamless Compatibility

Windows / Android

Anti-glare Screen

Anti-glare and anti-fingerprint, clear visibility even in strong light, no eye strain during prolonged use

178° Ultra-wide Viewing Angle

Extra-wide viewing angle from all directions, ensuring distortion-free display for group viewing and multi-angle presentations

They Are Using TH Smart Standing Desks

"With TH Smart Standing Desks, cross-device collaboration efficiency has increased by 50%. Multi-screen writing and annotation are incredibly smooth!"

—Technical Director, a Multinational Tech Company

"One-click wireless screen mirroring frees us from cables. Remote colleagues can participate in meetings efficiently."

—Director of Information Center, a Well-known University

"Dual-system compatibility and stable durability let me manage 30 workstations nationwide alone. Maintenance is worry-free."

—IT Manager, a Large Group

Application Scenarios

Smart Meeting Rooms

Collaborative writing, screen mirroring, interactive demos

Showrooms & Retail

Interactive product displays, customer experience engagement

Education & Training

Smart whiteboarding, group collaborative learning

Office Collaboration Zones

Standing brainstorming, data visualization displays
